

Thank you for buying a Texsport Authentic Adventure Gear product. We hope you enjoy your new stove and that it will serve you for many years to come. We encourage you to read and understand each step of the set-up and safety operation instructions prior to working with this stove.

**FOR OUTDOOR USE ONLY**

**GENERAL SAFETY INFORMATION**

- NEVER use in an enclosed area.
- DO NOT expose the propane cylinder to excessive heat.
- Never operate stove with missing or damaged parts.
- Always check burner holes prior to each operation. If blockage is found DO NOT use stove.
- Always inspect stove, propane cylinder and regulator and hose assembly for damage, debris or dirt before attaching the stove to the propane cylinder.
- If any damaged is discovered, DO NOT USE.
- DO NOT USE AS A SPACE HEATER OR FOR ILLUMINATION.
- Always attach/detach propane cylinder outdoors away from any open flame or pilot lights and only when the stove is cool.
- When storing or transporting stove always disconnect the propane cylinder and store it in a cool, well ventilated location, in an upright position.
- Be sure connection to propane cylinder is tightly secure (hand tighten only) prior to each use.
- Never operate the stove near any flammable liquid or vapors. Keep all flammable or combustible materials beyond the clearance zone as indicated on page 4 of this manual.
- Discontinue operation of the stove and close valve if:
  - ambient temperature drops below -10° F.
  - there is no fuel remaining in the propane cylinder
  - combustion becomes unstable
  - lighting cannot be performed quickly and easily
  - you experience repeated flame outs
- Should blockage occur in the fuel jet do not attempt to clear with a metal object. Call Texsport Customer Service at 800-231-1402 8AM – 5PM CST Mon-Fri.
- Never leave stove unattended when hot or in use.
- **KEEP OUT OF REACH OF CHILDREN.**

**INSTRUCTIONS FOR USE**

CONNECTING THE FUEL SOURCE

- Step 1 .....Unpack stove. Carefully compare contents to parts list on reverse side.
- Step 2 .....Use only the approved 16.4 oz/465 g disposable propane cylinder approved for use by the United States Department of Transportation DOT-NRC 232/290 M1110.
- Step 3 .....Make sure that the burner control valve knobs are turned off. Twist in a clockwise direction. 
- Step 4 .....Make sure regulator assembly rubber seal is clean and undamaged and in its proper centered position.
- Step 5 .....Attach the propane cylinder onto the regulator assembly hose (hand tighten only). Insert the metal collar fully into the end of the hose inlet connection and turn the collar clockwise  to tighten.
- Step 6 .....Please check all connections for leaks using soapy water. Bubbles will form if there is a leak present.
- Step 7 .....When you are sure there are no leaks, you may proceed to setup/lighting your stove.

SETUP/LIGHTING YOUR STOVE

- Step 1 .....The wind baffles packed on the bottom of the stove must be removed and placed over the burners and locked into place.
- Step 2 .....Place a flame source near the face of the burner and at the same time open the respective control valve to a low or medium setting. Gas will begin to flow and the burner will ignite.
- Step 3 .....If stove fails to light, turn off the valve. Allow any gas to dissipate and repeat step 2.

If stove still does not light – call Texsport Customer Service at 800-231-1402 8AM – 5PM CST Mon-Fri.

USING YOUR STOVE

- Step 1 .....After burner has ignited, adjust to desired heat level.
- Step 2 .....Keep children, pets and flammable materials well away from ignited burner.

- Step 3 .....While ignited DO NOT touch the cooking area. Only the control knob should be touched during operation.
- Step 4 .....Stove surfaces are very hot and should not be handled or moved, except after being shut down.
- Step 5 .....Allow stove to cool for 15 minutes before moving or storage.

**MAINTENANCE**

Be sure to keep equipment clean and make sure burners are always unobstructed. Propane appliances seldom require service as long as you keep valves and orifices away from dirt and dust. Always blow the valve clean before connecting it to a cylinder. If damaged DO NOT use the appliance and contact Texsport Customer Service at 800-231-1402 8AM – 5PM CST Mon-Fri.

**DO NOT PERFORM MAINTENANCE WHILE THE STOVE IS STILL HOT. PLEASE ALLOW ADEQUATE TIME TO COOL.**

**MINIMUM CLEARANCE TO FLAMMABLES OR COMBUSTIBLES**

Please keep stove away from any flammable or combustible materials or objects. DO NOT allow any fabric, clothing or any flammable or combustible material to come within the following distance restrictions.

1. Wind shields
2. Cover
3. Grill
4. Burner
5. Control Knobs
